

GAARD LOCK® PET SYRINGE SHIELD

- *Unique flange locking design reduces exposure with faster handling*
- *Constructed of .34" thick (9 mm) tungsten, attenuates FDG F-18 by 88%*
- *Available with or without a high density lead glass window*

The Gaard Lock PET Syringe Shield reduces hand exposure from syringes containing 511 keV radionuclides (FDG F-18). The barrel of the shield is constructed of .34" thick (9 mm) tungsten that attenuates FDG F-18 by 88%.

The syringe shield is offered with or without a high density (6.2) flush mounted lead glass window that provides protection and visibility. The interior of the barrel behind the glass has a white coating that improves the view of the syringe and contents. The syringe shield features a unique flanged locking mechanism that speeds the loading and unloading of the syringe, further reducing hand exposure.

Gaard Lock PET Syringe Shields accommodate the standard sized 3 cc, 5cc and 10 cc syringes. The Gaard Lock PET Syringe Shield fits the Manual Dose Injector.

Syringes lock in place with a simple twist of the hex-shaped ring.

SPECIFICATIONS:

Shielding: .34" tungsten (9mm)
Lead glass: 6.2 density

007-711 & 007-716 Gaard Lock Syringe Shield, 3 cc
Dimensions: 2.9" l (74 mm)
Weight: 1.7 lb (.77 kg)

007-712 & 007-717 Gaard Lock Syringe Shield, 5 cc
Dimensions: 3" l (76 mm)
Weight: 2 lb (.91 kg)

007-713 & 007-718 Gaard Lock Syringe Shield, 10 cc
Dimensions: 3.6" l (90 mm)
Weight: 3 lb (1.4 kg)

Gaard Lock PET Syringe Shields with lead glass window:

007-716 Syringe Shield, 3 cc.....	\$550.00
007-717 Syringe Shield, 5 cc.....	575.00
007-718 Syringe Shield, 10 cc.....	595.00

Gaard Lock PET Syringe Shields: without window:

007-711 Syringe Shield, 3 cc.....	\$525.00
007-712 Syringe Shield, 5 cc.....	535.00
007-713 Syringe Shield, 10 cc.....	555.00

Replacement Glass:

007-974 Glass, Replacement	\$80.00
<i>For Gaard Lock PET Syringe Shields 007-716, 007-717 and 007-718</i>	

Prices subject to change without notice.
